

Toshiba America Telecommunication Systems Division (TA-TSD) stated that as part of their global restructuring process, they have decided to wind-down the Telecommunications Systems Division starting immediately. This is shocking news to us and to the telecom industry as a whole. According to the notification, TA-TSD will continue to honor existing warranty and maintenance agreements. All VIPedge Cloud clients will be supported until the end of the contract term. We are working hard to get more information from Toshiba and planning for the future. We will do our best to keep you informed and up to date.

This news came to us as a surprise. We are planning our strategy to continue our relentless support to you and all our customers who depend on us for service and support of the Toshiba phone systems. Also, as part of the new ownership at CI, in the last three months, we have been planning our growth strategy to expand our newly re-structured Voice & Data group to include new strategic partnerships with vendors which includes a leading Telephone System manufacturer. Please be assured that Central Interconnect will be here to provide you service on your telephone system.

Please feel free to contact us if you have any questions or concerns.

Thank you for being a valued customer. We appreciate your business.

On Behalf of the Telecom Team at Central Interconnect.
